

## My favourite animals in China

1B 21 Pang Ka Yi, Kelly

Good morning, I am Kelly.

I want to show you my favourite animals in China.

They are Chinese white dolphin.

They are small and thin.

They have long beaks.

They have humps on backs.

They have small dorsal fins.

Their favourite food are fish and small shrimp.

They can swim fast and jump out of water.

I think they are cute!
