

The image features a background split diagonally from the top-left to the bottom-right. The upper-left portion is a vibrant yellow, while the lower-right portion is a soft, light purple. Scattered across this background are numerous small, colorful LEGO bricks in shades of orange, blue, green, and purple. Some of these bricks are assembled into the Chinese characters '多元' (Duoyuan), which translates to 'Diversity'. The character '多' (duo) is constructed from purple bricks, while '元' (yuan) is made of orange bricks. The character '化' (hua) is built with green bricks. To the right of the bricks, the text '多元化' (Diversity) is written in a large, bold, yellow font with a subtle drop shadow. Below it, the characters '學習體驗' (Xue Xi Ti Yan), meaning 'Learning Experience', are also written in a large, bold, yellow font with a drop shadow.
